We purchased Poltec kennels for the first time over 7 years ago. Since then we have added them to 5 surgeries and just placed a further order for more. They are very durable, easy to clean and exceptional value whilst being more than fit for purpose in a very busy group of surgeries.

I was really impressed with Poltec from beginning to end. Steven was a great help with the design and fit of the kennels to the space. I had 4 rooms done at my Practice, Dog, Cat, Exotics and Isolation; The cost of all this was very good value too.

James Cadwallader BVSc MRCVS

## CONFIGURED & INSTALLED

Although we have listed standard unit and module dimensions, each module is manufactured to order.

Therefore we can alter all measurements to suit your requirements, allowing you to utilise all those awkward sized areas, for example, under stair cases, in cellars or in narrow corridors/rooms.

Secret World Wildlife Rescue would recommend Poltec as a supplier of cages which are built to specification, are reliable and hygienic cages with a long life span.

Simon Kidner Secret World Wildlife Rescue,  
Highbridge, Somerset

We own a busy kennels and sometimes find that we may need to use a holding pen eg. when an owner due to collect is delayed. The pens arrived not long after I had placed my order and were fitted to an extremely high standard.

William Dean BJ Kennels and Cattery  
Gloucestershire

Veterinary

Once again Steve's advice proved influential and he even liaised with the builders to get things right for us. I would recommend that anybody requiring new kenneling looks at what Poltec can offer.

Hamish Duncan  
387 Veterinary Centre,  
Great Wyrley, South Staffs

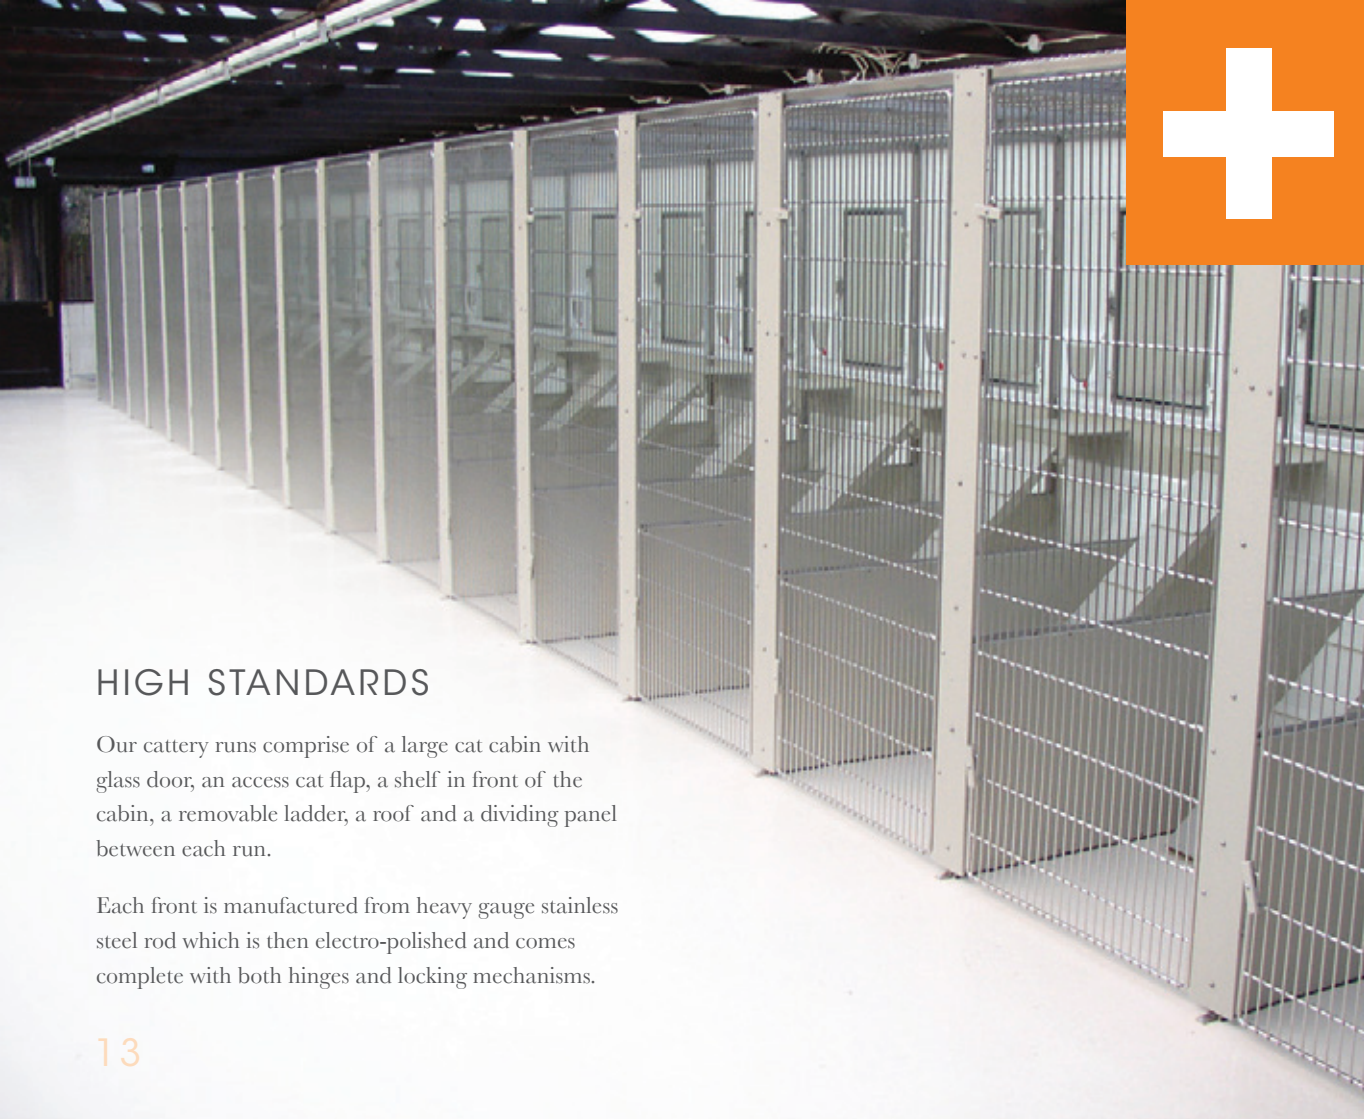

Veterinary

Poltec Kennels are much better than the ones we used to have and much easier to keep clean, which continue to give us good service after more than a decade of use.

Lena McGahey Wythall Animal Sanctuary

## HIGH STANDARDS

Our cattery runs comprise of a large cat cabin with glass door, an access cat flap, a shelf in front of the cabin, a removable ladder, a roof and a dividing panel between each run.

Each front is manufactured from heavy gauge stainless steel rod which is then electro-polished and comes complete with both hinges and locking mechanisms.

# Catteries

Poltec have provided our cages and kennels for the past 10 years from new surgery to expansion and then a move to new premises.

The quality and finish of the cages is second to none and the original cages are still in daily use and are almost 'as new'.

John Hope Ryan  
Masefield Veterinary Centre

#### FEATURES

- + POLTEC DESIGN, CONSTRUCT AND INSTALL CATTERY RUNS AND CABINS TO THE HIGHEST STANDARDS
- + COMPLETE WITH HINGES & LOCKING MECHANISMS

# Catteries

“ The quality of workmanship is outstanding, the service from design to installation has been excellent.

The Poltec cages are quiet to operate, (no rattling doors), they are easy to clean - simply wipe clean in most cases, they are bright and versatile and professionally manufactured and installed, the materials used are of good quality.

Colin Seddon  
Scottish SPCA

#### FEATURES

- + EASY TO CLEAN
- + MADE TO ORDER, TO SUIT YOUR REQUIREMENTS

## ONE-OFF PRODUCTS

Poltec can design and manufacture bespoke one-off productions to your specification and requirements.

The product speaks for itself. Above and beyond that, it's the superb customer service that I value whenever I'm refitting a practice.
